EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Attorney Csaba Henter on February 12, 2007.

The application has been amended as follows:

In claim 6, replace "Claim 1" with --Claim 5--.

In claim 7, replace "Claim 1" with --Claim 5--.

In claim 8, replace "Claim 1" with --Claim 5--.

In claim 10, replace "Claim 1" with --Claim 9--.

In claim 11, replace "Claim 1" with --Claim 9--.

In line 1 of claim 12, replace "a" with --the--.

3. The following is an examiner's statement of reasons for allowance: the search results indicate that the aluminum compound of the instant claims is novel. The cited X-reference of the International Search Report, Small (GB 889444), teaches an aluminum compound such as p-ethoxy phenyl aluminum diethyl. While the chemical composition of Small's aluminum compound is similar to those of the instant claims, it is noted that Small's p-ethoxy phenyl aluminum diethyl is not capable of forming a δ -bond between the oxygen atom and aluminum atom. Furthermore, applicants have shown superior activity when the aluminum compound of formula (I) with the effective δ -bond is used as

cocatalyst compared with similar aluminum compounds without the effective δ -bond, therefore, the aluminum compounds of the instant claims are not an obvious variation of the cited prior art and are deemed to be novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
